## ET 2000 - 4000

### ET 2000

Escalate Trailers from Bil-Jax save you time loading and unloading equipment because the deck hydraulically lowers to ground level so equipment can be driven right on or off the deck. Equipment can be loaded easily by one person even in inclement weather.

In addition, Escalate Trailers reduce equipment damage common with ramp-style and tilt-up trailers. This all adds up to more time on the job.

Each trailer tows easily due to the low center of gravity. This provides a smooth ride no matter the height or bulk of the equipment, or the traveling surface.

With Escalate Trailers from Bil-Jax, equipment only has to go up a 6 degree incline since the deck hydraulically lowers to ground level. This makes it easy for one person to load and unload equipment and reduces the amount of time involved.

Escalate Trailers provide the safest way to move light and mid-sized equipment. There are six different models with carrying capacities from 1,500 lbs. to 12,000 lbs. which fit a wide range of equipment including: skid steers, boom lifts, scissor lifts, mini-excavators, small rollers, floor saws and trenchers.

### ET 4000

## ET 5000 - 12000

Featuring a welded heavy duty frame, powder coated paint finish and a heavy duty diamond treaded plate deck, this trailer is manufactured to give years of durable, reliable service.

In today's busy world your customers need the safest most productive way to move their equipment from one job site to another. Escalate Trailers are designed to provide easy one person loading and unloading.

The adjustable hitch on the trailer makes it possible for the operator to move the coupler to accommodate any hitch height on the towing vehicle. This operation is as simple as removing two bolts, adjusting the coupler and replacing the bolts.

### ET 12000

The wide deck on the ET 12,000 allows for more equipment to be loaded at one time. Larger equipment can also be accommodated with this trailer.

The 6 degree slope and low ground clearance allows equipment to be loaded easily.

Escalate Trailers have a heavy-duty diamond treaded steel deck and are finished with powder-coated paint to provide years of reliable service. The controls are located on the driver side to provide easy operation and units are equipped with tie downs to make securing loads simple.

### ET 7000

## TIE DOWNS

All equipment can be secured properly with a series of tie downs which are standard on all Escalate Trailers.

## OPTIONAL EQUIPMENT

- Spare Tire
- Mounting Bracket for Spare Tire
- Charger  
(ET 4000, ET 5000W, ET 7000 and ET 12,000 only)
- Tool Box  
(Optional on ET 4000 and ET 5000W Standard on ET 7000)

## APPLICATIONS

- Appliances
- Backhoes
- Boom Lifts
- Compactors
- Fork Lifts
- Generators
- Lawn Mowers
- Mini Excavators
- Off Road Vehicles
- Personnel Lifts
- Pressure Washers
- Scissors Lifts
- Skid Steer Loaders
- Small Farm Equip.
- Tillers
- Trenchers
- Vending Machines
- Much More Equipment

## **WARRANTY**

WE WARRANT products manufactured by Bil-Jax to be free from defects in material and workmanship under normal use and service. We will repair or replace the item, at our option when proven to be defective, within one year from date received by customer. We will neither assume nor authorize any other person to assume for us any other liability.

This warranty shall not apply to any equipment which has been repaired or altered outside of our factory in any way so as in our judgement to affect its stability or reliability, nor which has been subject to misuse, or negligence.

Written notice must be received by us and acknowledged, before any units will be accepted for return, and units must be returned prepaid.

This warranty is in lieu of all warranties, expressed or implied. Consult Bil-Jax about warranty on products other than those specified.
